JEFFERSON COUNTY REMEDY LANDS/SEMI-ANNUAL REPORT - EML-0564-92

The enclosed report summarizes activities on the Jefferson County Remedy Lands during the first half of 1992. The Remedy Land activities are directed by the 1985 Settlement Agreement, McKay versus the United States. The Department of Energy (DOE) has agreed to provide Jefferson County with a report on Remedy Land activities on a semi-annual basis. This report should be transmitted to the following individuals:

- Ms. M. L. Tucker, Assistant Jefferson County Attorney
- Mr. Stanton LeBreche, Jefferson County Open Space
- Ms. Jean Jacobus, Jefferson County Attorney's Office
- Ms. Bonnie Lavelle, EPA, Region VIII
- Mr. Carl Spreng, CDH, Hazardous Materials and Waste Management Division
- Mr. Gary Finstad, SCS, District Conservationist

The ability to schedule future tilling operations, as required by the Settlement Agreement, is limited by lack of revegetation success on areas tilled in 1985 and 1986. Previous reports to Jefferson County have outlined historically poor revegetation results. The Settlement Agreement states that tilling of the alternate set of strips shall not begin until the first set is successfully reestablished in native plant species. An aggressive revegetation program was initiated in 1991 and will continue. Results of the Operable Unit No. 3 (OU 3) Remedial Investigation field work currently being conducted will also be used to plan future activities on the Remedy Lands.

If you have any questions regarding this report, please contact M. Guillaume of the Remediation Programs Division at extension 8557.
